

## STUDENT FUNDRAISING ACTIVITIES

The Board recognizes that fundraising may create a sense of community among parents, students, and staff and may be used to generate additional revenue to provide learning opportunities which can enhance educational opportunities for students. The Board also recognizes the need for restraint to prevent fundraising activities from becoming too numerous for staff, students, and the general public. The following are guidelines for fundraising activities.

1. Funds raised are to be used to benefit students, enhance the quality and relevance of education, and contribute to the development of responsible citizens.
2. Funds raised should compliment, not replace, public funding for instructional purpose.
3. Decisions related to fundraising and the expenditure of funds raised will be made in consultation with the building principal/director.
4. Student and staff participation in fundraising activities is voluntary.
5. All door-to-door fundraising activities must have prior approval by the Board. The superintendent will present a list of all door-to-door fundraising activities by August of each school year.

The accountability of fundraising activities is the responsibility of the Board. The building principal/director will maintain detailed information and will communicate the information to parents, students and staff. A summary financial statement relating to the fundraising activity will be reported to the District's business Office and kept on file for public view.
