

TUITION

Nonresident students who do not possess an approved open enrollment application for attending the Watertown School District shall be charged tuition. The annual rate of tuition shall be the student need rate established by the State of South Dakota for the purpose of calculating state aid to education. Building principals and/or guidance counselors shall be responsible for reporting all nonresident students to the Business Manager. Tuition is charged on a per day basis. Therefore, principals are required to furnish entrance and withdrawal dates for each tuition student along with the name and address of the parent/guardian. Tuition being paid personally on behalf of the nonresident student shall be paid in advance of enrollment on an annual or monthly basis. If the student ceases to be a member of the District before the term in which payment was received, the District will refund the unused portion of tuition.
